

TITAN APRILIYAN NADINE ANANTA

FULLSTACK DEVELOPER

Ponorogo, Indonesia | titanaprilian73@gmail.com | github.com/titanaprilian

SUMMARY

Passionate Full Stack Engineer with hands-on experience in building scalable web applications using Laravel, Express.js, React, and Next.js. Skilled in developing RESTful APIs, managing databases, and deploying applications. Eager to contribute to innovative software projects and grow within a dynamic engineering team.

PROFESSIONAL EXPERIENCE

Internship, PT. Marstech Oct 2025 - Present

- Led the back-end development of an human resource system

Freelance Fullstack Web Developer Jan 2023 - Present

- Developed and deployed Village Information Systems for Desa Jabung, Desa Wringinanom, and Desa Ngrayun, providing digital access to village financial data, news, and online document services.
- Implemented CRUD functionalities, role-based authentication, and admin dashboards using Laravel, MySQL, and Tailwind CSS.
- Designed RESTful APIs and improved data management efficiency for village administrators.
- Contributed to the Academic System project of the Engineering Faculty, focusing on backend development and performance optimization.

PROJECTS

Village Information System, Desa Ngrayun Ponorogo Sep 2024- Oct 2024

Tech Stack: Laravel, MySQL, Tailwind CSS, React, Typescript

- Developed a full-featured Village Information System to digitize village administration, including financial reports, news management, and document request forms.
- Designed and implemented RESTful APIs and role-based authentication for administrators and residents.
- Deployed the system using cPanel and ensured security best practices for data access.

EDUCATION

Bachelor of Computer Science Nov 2022 - Present

Universitas Muhammadiyah Ponorogo (UMPO)

Relevant Coursework: Web Development, Machine Learning, Software Engineering

ADDITIONAL INFORMATION

- Languages:** English (Intermediate), Bahasa Indonesia (Native), Javanese (Conversational)
- Certifications:** Dicoding – Belajar Membuat Aplikasi Back-End untuk Pemula, Front-End Web Developer Fundamentals
- Awards/Activities:** Contributor to the Faculty Academic System project, actively involved in student tech initiatives.

TITAN APRILIYAN NADINE ANANTA

FULLSTACK DEVELOPER

Ponorogo, Indonesia | titanaprilian73@gmail.com | github.com/titanaprilian

PROFIL SINGKAT

Seorang Fullstack Web Developer dengan pengalaman mengembangkan aplikasi web menggunakan Laravel, Express.js, Next.js dan React. Terampil dalam merancang RESTful API, mengelola basis data, serta menerapkan konsep clean code dan responsive design. Memiliki semangat tinggi untuk berkontribusi dalam pengembangan sistem berbasis web yang inovatif dan skalabel.

PENGALAMAN PROFESIONAL

Internship, PT. Marstech Okt 2025 - Sekarang

- Memimpin pengembangan back-end sistem sumber daya manusia

Freelance Fullstack Web Developer Jan 2023 - Sekarang

- Mengembangkan dan menerapkan Sistem Informasi Desa untuk Desa Jabung, Desa Wringinanom, dan Desa Ngrayun guna mendigitalisasi layanan publik seperti laporan keuangan desa, berita, dan pengajuan dokumen online.
- Merancang dan membangun RESTful API, autentikasi berbasis peran (role-based), serta panel admin menggunakan Laravel, MySQL, dan Tailwind CSS.
- Mengintegrasikan backend dengan antarmuka web yang responsif, meningkatkan pengalaman pengguna dan efisiensi pengelolaan data.
- Berkontribusi dalam pengembangan Sistem Akademik Fakultas Teknik, berfokus pada optimasi performa backend dan manajemen database.

PROYEK

Sistem Informasi Desa, Desa Ngrayun Ponorogo Sep 2024- Okt 2024

Teknologi: Laravel, MySQL, Tailwind CSS, JavaScript

- Membangun aplikasi web terpadu untuk pengelolaan informasi dan transparansi data pemerintahan desa.
- Menyediakan fitur autentikasi multi-level, sistem berita, dan pengajuan surat online.
- Melakukan proses deployment menggunakan cPanel serta memastikan keamanan akses data.

PENDIDIKAN

Sarjana Teknik Informatika — Fakultas Teknik
Universitas Muhammadiyah Ponorogo (UMPO) Nov 2022 - Sekarang

Mata Kuliah Relevan: Pengembangan Web, Machine Learning, Rekayasa Perangkat Lunak

INFORMASI TAMBAHAN

- Bahasa:** Bahasa Indonesia (Native), Inggris (Menengah), Jawa (Percakapan)
- Sertifikat:** Dicoding – Belajar Membuat Aplikasi Back-End untuk Pemula, Front-End Web Developer Fundamentals
- Penghargaan/Aktifitas:** Kontributor aktif dalam pengembangan sistem akademik Fakultas Teknik
